To: Microsoft, India

I am excited to apply for the Technology Consulting Summer Internship at Microsoft. With a year of experience in Object-Oriented Programming (OOP) and extensive Java practice, I am confident in my ability to contribute effectively to your team. I have worked on group and individual projects, including Java and frontend projects with HTML, CSS, JavaScript, and Bootstrap.

Since my first year in college, I have focused on mastering Java and solving over 150 LeetCode problems, honing my problem-solving skills and deepening my understanding of core Java, OOP, and DBMS. These experiences have prepared me to tackle real-world challenges.

Thank you for considering my application. I look forward to the opportunity to contribute to your team.

Sincerely, Shivam

Shivam Shukla
